## Skills

Ansible		Git		NGINX		RegEx	
AWS		GraphQL		OAuth		Ruby	
Bash Script		Javascript		PHP		SQL	
Build Pipeline		Jenkins		Python		Terraform	
Docker		Linux		Rails		Vue	
ELK		MVC		React		Webpack	

## Career

### DXC

#### Solution Architect - Jan 2019 - Present

- Designed, implemented and vetted various cloud-based systems that scaled
- Frequently served as point person between DXC and Fortune 500 clients - Microsoft, Nissan, Chevron, Sabre and more
- Provided teams with programming, devOps, networking, database and cloud engineering help when needed

### Autobrain

#### DevOps - Aug 2017 - Aug 2018

- Managed roughly 50 AWS servers
- Collaborated with team leaders to configure and install dependencies on remote environments
- Designed and maintained IaC systems using Ansible, Terraform, Jenkins and Docker
- Supported devs with special workflow tools using AWS Lambda and traditional server-based solutions
- Refactored logging system using the ELK stack and Filebeat

#### Sr. Backend Developer - July 2016 - July 2017

- Built logistics features for the company's admin dashboard using Ruby on Rails
- Oversaw new tech choices, reviewed code and helped onboard new hires
- Worked with many 3rd-party APIs for various features
- Used TDD and OO best practices
- Optimized app and database responsiveness

#### Frontend Developer - Jan 2016 - June 2016

- Designed and coded UI elements for the app's client-facing side
- Built the "accident detection" portal and other features using ReactJS
- Redesigned the company's "trip report" feature using the Google Maps APIs, caching results for better response time

### RadiumCRM

#### UX/UI Frontend Developer - June 2012 - Nov 2015

- Developed frontend features and UI elements for the web app, iPhone app and marketing website
- Built a robust Chrome extension that interfaced Gmail with the web app via a RESTful API

## Side Projects

### Noteswap

#### CEO + Founder - Nov 2005 - Present

- Founded a self-sustaining service that attracts 500k visitors, 5 million pageviews, 30k uploads and 15k users annually
- Manage all business and product responsibilities
- Designed frontend theme and style guide, UI elements and marketing material

## Education

### Louisiana State University

Mass Communication - Advertising - Aug 2004 - Aug 2009
